General Cleaning Recommendation:

Staining Agent	Cleaning Procedure
• Baby Oil	Step 1
• Ketchup	Step 1
• Chocolate	Step 1
• Motor Oil	Step 1
• Olive Oil	Step 1
• Tea / Coffee	Step 1
• Eye Shadow	Step 2
• Crayon	Step 2
• Grease	Step 2
• Permanent Felt Tip Marker	Step 2
• Mustard	Step 2
• Lipstick	Step 2
• Ball Point Pen	Step 2

Step 1: If cleaned immediately, use a clean dry cotton fabric. Wipe once, careful to remove most of the stain without spreading to surrounding area. Wipe more vigorously a second time if residue remains and proceed to Step 2.

Step 2: If residue remains use a straight application of the following contracted cleaners:

- Formula 409®
- Fantastik®

Wipe with a clean cloth, rinse with water and dry. If residue remains proceed to Step 3.

Step 3: More stubborn soiling may be eliminated using a cotton fabric soaked in 91% isopropyl (rubbing) alcohol. Wipe without spreading stain to surrounding area. A second application should be applied with vigorous rubbing in a circular motion. For highly textured material, a soft toothbrush is recommended to clean valleys and crevices. Wipe with a clean cloth, rinse with water and dry.

***Please note that PBG+ is not “stain proof” and indelible inks; particularly those containing certain dyes used in permanent felt tip markers can leave a shading if cleaning is delayed beyond 20 hours. Results are best when cleaned within the first 24 hours of staining. Arc-Com assumes no responsibility resulting from the use of such cleaning agents on the vinyl. Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible.**
