

The Arc-Com design studio celebrates time honored, global weaving techniques with the creation of the **Modern Classics Collection**. Patterns Fusion, Revive and Premiere Wool reinvent age-old weaving techniques with a contemporary twist.

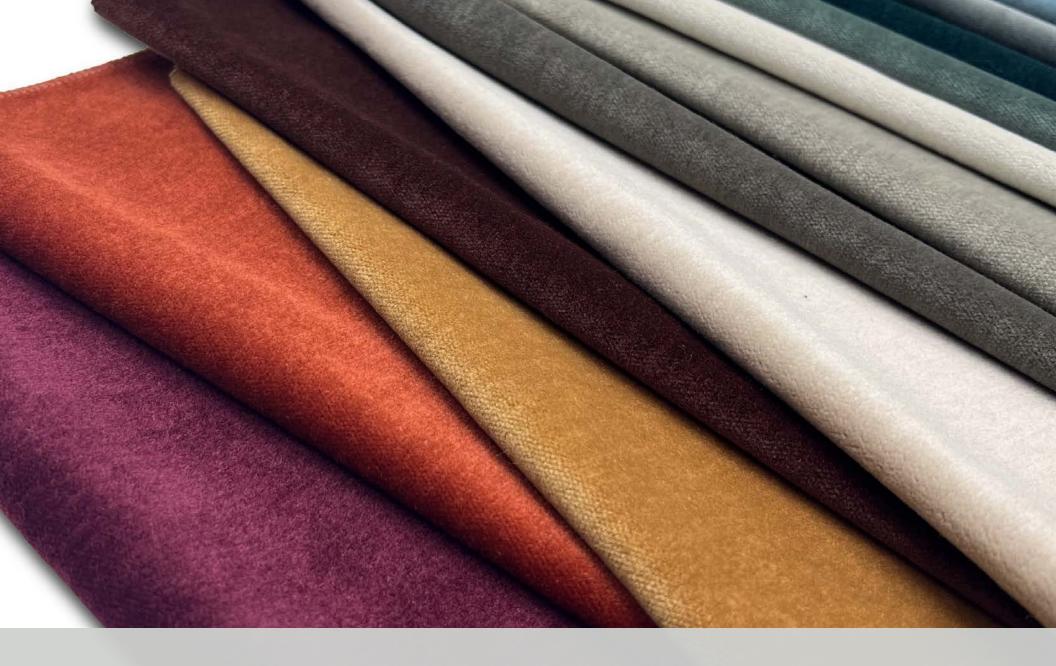

Original, authentic ikat dates back 5,000 years and technical ikats are hand-dyed and woven.

Fusion employs a traditional "blurred" Ikat effect in a modernized mid-scale geometric. The Arc-Com design studio sought to capture the unique, complex, irregular and visually softened look found in traditional ikat hand weaving on a modern jacquard loom.

Revive finds its structure in a traditional herringbone weave but it is infused with texture through the use of a novelty chenille yarn. The chenille yarn adds not only a soft and luxurious hand but additional surface interest as well.

Premiere Wool modernizes a classic plush through the use of color. This ageless version combines wool and acrylic to create a luxurious performance plush.

The **Modern Classics Collection** offers designers performance products that can elevate interior spaces with both tradition and artistry. These timeless patterns are a testament to craftsmanship and can blend seamlessly into modern or contemporary settings.
