

Inspired by water and its
ever-changing color and
movement, Arc-Com's

Essence Collection explores
visual rhythm and flow and
captures the graceful fluidity
of this essential element.

With a desire to increase patient connectivity to the natural environment, this collection draws upon the tenets of biophilic design. Water-based imagery is used in an effort to connect us back to nature, with the goal of creating positive impacts on both our physical and mental health and well-being in indoor healing environments.

The Essence Collection includes two coated upholstery patterns, **River and Splash** and a companion privacy curtain, **Wave-X** with X-STATIC® Silver Antimicrobial Technology.

- Healthier Hospitals Compliant.
- PFAS Free (including PFOA & PFOS Free)
- Proposition 65 Compliant
- LBC Red List Free
- REACH Compliant
- RoHS Compliant
- Low VOC's
- Contributes to LEED Certification
- Up to 50% of the silver used in X-Static[®] Silver Antimicrobial Fiber is recycled

A portion of the proceeds of The Essence Collection will be donated to **Water.org**.

Water.org is an international nonprofit organization that helps
people living in poverty get access to safe water and improved sanitation.

SPLASH

Content 100% Polycarbonate Polyurethane

Finish WriteOut® Ink Resistant | Bleach Cleanable

Abrasion 250,000 double rubs

Application Upholstery

Colorways 16

Despite the steps taken to reduce HAIs, they still remain one of the world's leading and most costly healthcare challenges.

Most are preventable. All are extremely harmful in human and financial terms.

X-STATIC® is the leader in antimicrobial fabric technology and is clinically proven to inhibit the growth of bacteria on textile surfaces.

- X-STATIC fibers are permanently bonded with a layer of 99.9% pure metallic silver.
- X-STATIC is not nanotechnology or a complex chemical formula, just silver.
- X-STATIC creates an ionic shield that permanently inhibits the growth of bacteria and fungi.
- Privacy curtains made with X-STATIC fibers are flexible with the natural look and feel of traditional textiles while offering all the benefits of pure silver.
- X-STATIC is the active ingredient in Federal
 Drug Administration (FDA) approved products
 for advanced woundcare and has undergone
 extensive safety testing. X-STATIC is also a registered
 antimicrobial agent with the Environmental
 Protection Agency (EPA).
- X-STATIC cubicles have been tested after 200 commercial launderings with virtually no reduction in performance.
- No unnecessary medical waste in the environment or disposal fees as compared to disposable curtains
