

INTRODUCING  
**FLORA**

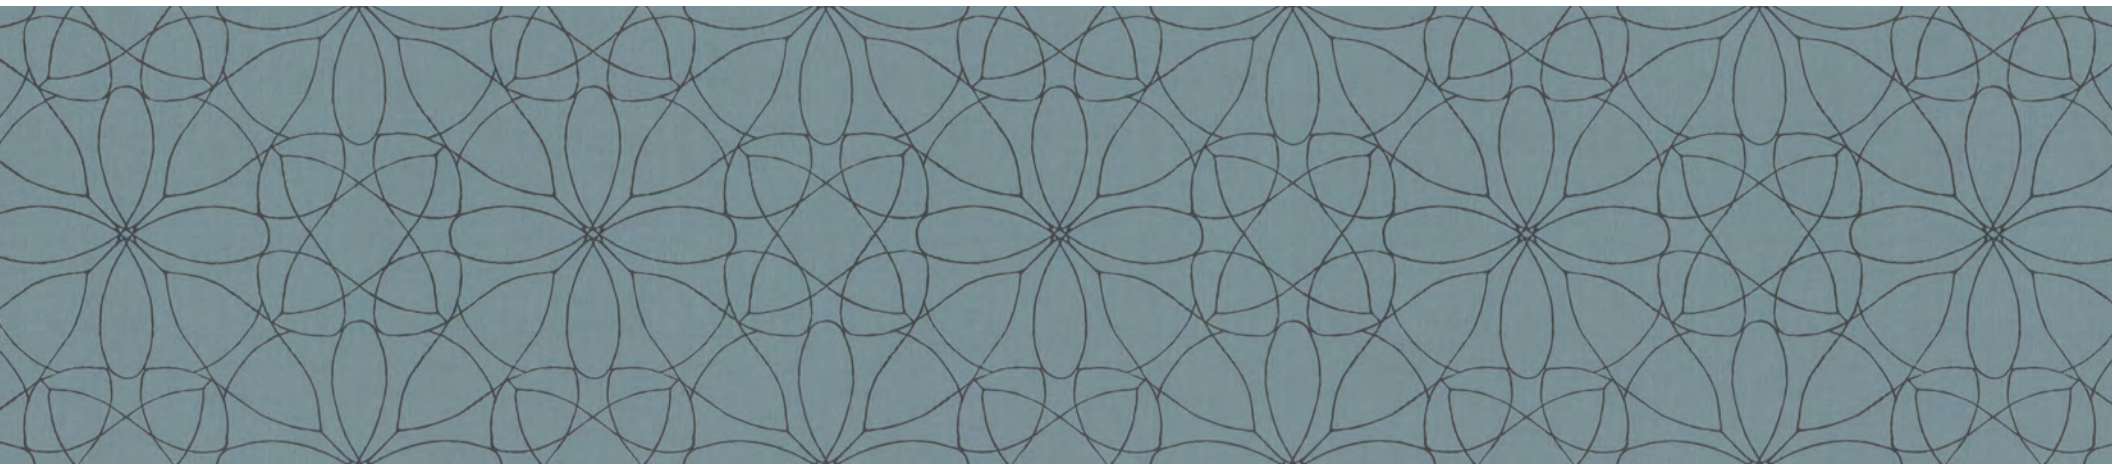

The Arc-Com Design Studio expands its offering of well-priced, printed, performance vinyl with the addition of pattern **Flora**. **Flora's** graceful, stylized, botanical motif sits on top of a refined linen print in the ground. Coupled with a fine emboss, the surface mimics the look of a textile. The delicate linework in the motif, reminiscent of petals and leaves, is organic without ever becoming too literal.

**BLEACH CLEANABLE**

The image shows two sheets of paper with a repeating floral pattern. The top sheet is dark charcoal with light blue lines, and the bottom sheet is light beige with dark brown lines. The pattern consists of overlapping, stylized flower shapes. A white rectangular box is positioned at the bottom left, containing the text 'REDUCED ENVIRONMENTAL IMPACT'.
